

.NET Developer

The 2M Group of Companies are looking for an enthusiastic .Net Developer who has a “can do” attitude and passion for everything digital. This is a very exciting opportunity to join a growing, multinational company at the digital forefront of the chemical industry.

Details

Employment Details: Full-time / Permanent

Location: The role will be based both from home and from either the company offices in Runcorn or Leeds – a split of 3 days working remotely, and 2 days office based, as a guide.

Competitive Salary + generous holiday entitlement and other benefits

Digital development is becoming ever more important within the Chemical industry. With this comes a requirement for a .Net Developer to work in-house to support the creation, development, and maintenance of the Group’s digital stack.

Reporting to the Group Digital Lead, you will have an in-depth knowledge of the software stack, with the ability to develop it using good practice and with security of data always at the forefront. Being the sole internal .Net Developer, you will have the opportunity to make the role your own and establish yourself as key part of the digital team. You should be a self-starter and have the ability to work independently with pace.

Key Responsibilities

- Ongoing development of innovative internal tools
- Manage, maintain, and develop externally facing websites
- API modification and development
- Troubleshoot user and customer issues
- Communicate and work closely with stakeholders & 3rd party developers

Skills & Experience

Essential

- Experience using ASP .NET Core
- Knowledge and Use of C# & JavaScript
- Knowledge of Azure Cloud and Cloud Applications

Desirable

- Prior experience with Microsoft SQL Server
- Knowledge of Visual Studio
- Agile Product Development

To apply for this role, please apply with an up to date CV to recruitment@2m-holdings.com detailing how your experience matches the requirement of the role.
