

SHEQ/Operations Supervisor

We are looking for an organised SHEQ/Operations supervisor who will ensure all facets of our Health, Safety, Quality and Environmental management will meet and exceed all site, Group, and regulatory targets.

This is a very exciting opportunity for an enthusiastic professional to join a growing company at the forefront of the Chemical industry. The ideal candidate will have experience in managing Quality, Health & Safety and Environmental systems and delivering best practice from a product and operational perspective and be keen to get involved in this hands-on environment.

About Banner Chemicals

Banner Chemicals, a 2M Group Company, is headquartered in the UK. With customers all over the world, Banner Chemicals strives to deliver chemistry-based solutions for a better life today and a better world tomorrow. We supply chemicals and offers technical knowledge worldwide for a range of industries including Household, Industrial and Institutional Care, Automotive, Aerospace, Oil & Gas and Water Utility industries. As part of the 2M Group of Companies, we provide customers with market leading commercial and technical expertise.

What we offer

Job type: Full-time

Salary: Competitive

Work environment: Site Based- 8.5-hour days (Flexible)

Location: Runcorn, UK

Key Responsibilities

- Assist in the continuous improvement of SHEQ related KPI's.
- Ensure all daily operational plans are executed efficiently to meet all customer requirements.
- Ensure all daily and weekly inspections are carried out to ensure compliance to both site and regulatory legislation.
- Proactively champion QSHE best practice throughout the business.
- Assist the site management team in root cause analysis and subsequent implementation of effective preventative and corrective measures for both audits and any associated customer related concerns.
- Actively manage and be the primary site contact for all external audits from customers and competent authorities.
- Monitor and help develop training as necessary in areas of health and safety, compliance and production
- Complete and review site risk assessments, procedures, and relevant product COSHH assessments.
- Report to the local site manager and to Group Health, Safety & Environmental manager on all related matters.
- In the case of any noncompliance, help to assist the site management team in root cause analysis and the implementation of effective preventative measures.
- Manage our customer complaint process from receipt of non-conforming product/issues to the closing out of the complaint with definitive, thorough, and effective preventative measures.
