

Stock and Asset Controller

We are looking for an enthusiastic Stock Controller to provide critical support to the Middlesbrough site that will report directly to the site Planning and Logistics Manager.

The ideal candidate must be able to work as part of a team in an empowering environment. We are looking for a natural leader that is able to work on their own initiative, plan effectively, and that has a willingness and ability to learn new and different Software systems.

This role requires true understanding of logistics and production demands, primarily fault-finding follow-up to eradicate stock losses or system errors. We are looking for a candidate with exceptional organisational skills to implement optimum solutions and improve customer services.

Key to the success of this role will be a strategy of continuous improvement, the effectiveness of which will be measured by improvements in KPI metrics.
